Clínica Tepeyac uses an integrated, team-based approach with a special focus on caring for your whole family. We work with you to make sure the care we deliver is meeting your and your family’s needs.

We serve the whole community, providing quality medical care to patients regardless of their income status or insurance coverage. We provide services in English and in Spanish, and can offer interpretation/translation assistance and other auxiliary aids (visual or hearing) upon request.
SERVICES
WE PROVIDE
Clinica Tepeyac provides health care, behavioral health, oral health, and health education services.

Physical Health (Medical)
Comprehensive evidence-based primary care, including preventative care (well child and adult care), on-site acute treatment, chronic disease management, personal health coaching, HIV/AIDS care management, referrals for specialty care, and case management.

Behavioral Health (Mental Health)
Behavioral health counseling for individuals, couples, families, and groups, including short-term behavioral interventions and long-term traditional therapy.

Dental Health
Preventive oral health services through a dental hygienist, including screening and preventive care.

Health Promotions and Education
Chronic disease management and prevention, including diabetes prevention education, cancer awareness and prevention, healthy cooking and exercise classes.

Pediatrics
Well and sick child care, including vaccines and developmental screening and education.

Maternity Care
Specialized prenatal and postpartum care, to best serve you and your baby.

Patient Portal
Did you know that you can access your medical records online? Once registered, you have 24/7 access to your health records through the Clinica Tepeyac Patient Portal. Ask one of our front desk staff to get registered.
